RE: Change in Course Completion Roster

Recently the Department conducted a risk assessment and recommended that we remove the option of submitting social security numbers of students that have successfully completed EMS Education Programs. I have modified the course completion roster form; BHPPA-EMS 122 revised 10-06, and made it immediately available on our website at [www.michigan.gov/ems](http://www.michigan.gov/ems). If you are not familiar with our website you will find it in the "initial education" section.

Please be sure to use this most current version of the course completion roster. I will not be able to accept other revisions.

I apologize for any inconvenience this change has caused your program.
